### Academic Details

- Full Stack Web Developemet  
Relev by Unacademy;  
(09/2022) – [view certificate](#)

### Soft Skills

Analytical | Collaborator | Leader | Adaptable

### Technical Skills

- Programming Languages:**  
JavaScript, Solidity, C++ (Basic)
- Web Development :**  
Next.js, React.js, Redux, Tailwind CSS, MUI, Shadcn UI, Node.js, Express.js,
- Mobile App Development:**  
React Native, React Native Expo, NativeWind
- Backend:**  
Node.js, Express.js, Mongoose, MongoDB, Sequelize, MySQL
- Blockchain:**  
Solidity, HardHat, Ether.js

### Core Competencies

Software Development Life Cycle

Restful API

Debugging

Web Services

Performance Optimization

System Scalability

### Profile Summary

- Developed and maintained both web and **cross-platform mobile apps** using **React Native** and the **MERN stack**, ensuring seamless integration with **back-end services**. **Optimized performance** and **stability** across **web** and **Android** platforms, enhancing **user satisfaction** and **engagement**.
- Played a key role in **building RESTful APIs** and developing secure, fast, and scalable **server-side applications** using Node.js and Express.js, ensuring clean and modular codebases
- Enhanced performance and reliability** of web applications by optimizing database queries, implementing efficient APIs, and improving application scalability, resulting in a significant reduction in system response times
- Continuously expanding expertise in emerging technologies, contributing to both **front-end and back-end development**, ensuring seamless and innovative product releases.

### Work Experience

**Software Developer Engineer**  
**The Tann Mann Gaadi, Remote**

**Apr 2024 – Current**

#### Responsibilities:

- Developing and optimizing dynamic web applications and mobile applications utilizing Node.js, Express, React, Next.js, Redux, and React Native.

**Software Developer Engineer | MERN Stack Developer**  
**NUK 9 Information, Mumbai**

**Mar 2023 – Mar 2024**

#### Responsibilities:

- Streamlined edge server monitoring processes, resulting in an improvement in system uptime and performance.
- Collaborated with cross-functional teams to ensure smooth integration of technologies, improving system efficiency and scalability.

#### Achievements:

- Streamlined edge server monitoring processes, resulting in an improvement in system uptime and performance.
- Recognized as the best performer in the team for 2023Q4, showcasing dedication and excellence in software development.

**Software Developer Engineer [Internship]**  
**Flynaut SaaS Private Limited, Remote**

**Sep 2022 – Feb 2023**

#### Responsibilities:

- Worked on the **admin panel** and **backend APIs** while contributing to mobile app development using React Native. Gained **hands-on experience** in full-stack development and **collaboration** within a **dynamic team**.

### Academic Projects – To view all my projects, please visit my [Portfolio](#)

**Career and Skills - a learning platform | Web App | [live link](#)**

**Tools:** React, React-Router-Dom, Material UI, Node Js, Express Js, MongoDB.  
**DESCRIPTION** - This is a versatile platform featuring both User and Admin panels.

**Aora | Mobile App | [git link](#)**

**Tools:** React Native Expo, AppWrite, NativeWind.  
**DESCRIPTION** – This app offers: user authentication, video upload, like/dislike, etc.

### Personal Details

**Date of Birth:** 14<sup>th</sup> April 1999

**Languages Known:** English and Hindi

**Address:** Rampur, Uttar Pradesh
